## OBJECTIVE

---

A passionate team-oriented developer looking for a position to apply my skill set and continue to learn and grow as a developer.

---

## SKILLS

---

My focus for the last 2 years has been web application development using Angular Javascript framework. I have worked extensively with Firebase NoSQL databases as well as NodeJS with Express.

---

---

## EXPERIENCE

---

### SOFTWARE DEVELOPER – TERRATAP TECHNOLOGIES

December 27, 2019 – Present

At this start-up I was responsible for designing and implementing an Angular web application; firebase server and database management; development, deployment, and management of a NodeJS Express server that issues authentication tokens for our services; and effective communication with designer, CEO, and CTO.

### JUNIOR SOFTWARE DEVELOPER – HEADSTART MEDICAL

June 25, 2017 – December 21, 2017

At this start-up I was responsible for designing and implementing an Android application; designing and implementing a companion web application using HTML, CSS, and JavaScript; firebase server management; and effective communication with designer, co-developer, client, and project management.

---

## EDUCATION

---

### COMPUTER SYSTEMS TECHNOLOGY DIPLOMA

British Columbia Institute of Technology

I graduated the Computer Systems Technology diploma program with a final GPA of 85. Transcript is available upon request.

- My team was voted best brain game in the first practicum.
- Led team of 11 people in class project building an information system.

---

## SOFT SKILLS

---

Experience leading teams of up to 20 people. Facilitated effective communication in high pressure environments. Responsible for setting and achieving budgeting targets such as food and labour costs. I'm a hard-working individual who gives his all.
